

REPAIR OF THE KITCHEN WING AND DINING-HALL IN THE SCHOOL FROM GRIGORAUCA

The school from Grigorauca receives 180 children. Only small repair works were done since the construction year (1970). The condition of the kitchen wing and the dining-hall was particularly bad. The German organization „KINDERMISSIONSWERK“, Aachen took over the costs for repair and equipment.

The official opening of the newly repaired project took place on May 25, 2016. The bishop Anton Cosa blessed the project. Children were very happy to receive the first full meal in the newly repaired dining-hall.
