

REPAIR AND INSTALLATION OF INNER TOILETS IN THE VILLAGE SCHOOLS

The toilets from Moldovan village schools are outside and in a very poor condition without water, heating, electricity, windows and doors, hygiene items. With the help of „Help for Children in Need“ (HCN), Evilard and Hilfswerk Liechtenstein, Triesen we could repair and install inner toilets in three schools, where our day care centers for children are placed. It is referred to the schools from Mihailovca (one day care center), Petroveca (two day care centers) and Ciucuieni (one day care center)

Inner toilets in the school from Petroveca (Donator: HCN)

Inner toilets in the school from Mihailovca (Donator: HCN)

Inner toilets in the school from Ciucuieni (Donator: Hilfswerk Liechtenstein)
