

Educational Centers in Moldova

The educational centers in Moldova within the day care centers BUNVOLENTIA and the boarding school for children with slight mental handicap from Straseni were opened in order that children could receive an education that will offer them a view on the future profession.

The workshops within the boarding school for children with slight mental handicap - bakery, joiner's shop, sewing workshop, hairdressing salon - are recognized educational institutions; on graduation from these institutions after a 2-year training, the learners will receive a diploma. The first graduates will leave the boarding school as qualified workers this year.

In the bakery of the Ochiul Alb village three girls finish their education this year. Another young people will be taught the profession of the baker.

The sewing workshop within the day care center for children BUNVOLENTIA - Soricel continues its activity; seven girls go to the sewing courses. They already sewed Moldovan folk costumes and pillowcases.

Further sewing workshops run very well in the day care centers for children BUNVOLENTIA - Alexandrovca, Gangura I and Misovca. Thus, the girls sewed 7 Bulgarian, 12 Moldovan and 6 Ukrainian woman folk costumes. They want to start with folk costumes for men now.

In the joiner's shop of the day care center for children BUNVOLENTIA - Gangura II 20 talented boys learn to assemble cupboards and chairs and to make different kitchen appliances.

Another joiner's workshop makes great progress. It is located in the day care center for children BUNVOLENTIA - Cozesti. The 12 chess games, that the boys made, were given to other day care centers. A chess competition is scheduled in fall.
