

# Day children centers BUNVOLENTIA

Partner: Help for Children in Need, Switzerland

„Who says, there are 7 miracles in the world, hasn't experienced yet the birth of a child,

Who says, the wealth is all, hasn't seen ever the smile of a child, Who says, this world is not to be saved, forgot that the children mean hope”.

13 day children centers run at present in various regions of Moldova in order to offer protection and hope for the future to children from social disadvantaged families. Warm meals, the homework and professional orientation are the important activities for improvement of the living condition of the children.
